RICKSAN WIRA PUTRA

FULL-STACK DEVELOPER

+62 831-9898-2989 | ricksanwira@gmail.com | linkedin.com/in/ricksan-wira-putra |
github.com/wirap116206-code | https://ricksan-wira.vercel.app | Depok, Indonesia

Summary

Full-Stack Developer with a Software Engineering background and hands-on experience building web applications and practical software solutions. Proficient in JavaScript and TypeScript, with experience using React.js, Next.js, Node.js, Express.js, RESTful APIs, and React Native. Experienced in working with relational and NoSQL databases, including PostgreSQL, MySQL, MongoDB, Supabase, Prisma, and Mongoose. Passionate about developing scalable, user-focused applications while continuously strengthening software engineering and problem-solving skills.

Skills

Programming Languages: JavaScript, TypeScript

Frontend: React.js, Next.js, React Native, Expo, Tailwind CSS, shadcn/ui, HTML, CSS, Zustand, DaisyUI

Backend: Node.js, Express.js, RESTful APIs

Database: MongoDB, PostgreSQL, MySQL, Supabase

ORM/ODM: Prisma, Mongoose

Tools/Other: Git, GitHub, Postman, Visual Studio Code, Vercel, Figma

Experience

Full-Stack Developer Intern | PT. DumbWays Indonesia Teknologi

Jul 2026 – Sep 2026

- Developed Barberz, a barbershop management platform supporting onsite and home service operations.
- Built administrative features for managing customers, barbers, services, orders, payments, and invoices
- Developed a customer-facing web application using Next.js and React to enable service selection, barber booking, and order progress tracking.
- Implemented real-time order progress updates using Socket.IO and integrated Midtrans for payment processing.
- Developed an admin mobile application using React Native and Expo, with backend services built using Node.js, Express.js, Prisma, and PostgreSQL.

Software Engineer Intern | PT Basicteknologi Intersolusi Tersinergi

Dec 2024 – May 2025

- Analyzed existing applications to identify potential improvements and understand user and business needs.
- Participated in the analysis of a Customer Relationship Management (CRM) system, including workflows and application processes.
- Reviewed project stages and workflows to identify potential shortcomings and improvement opportunities.
- Collaborated with mentors and team members to gather feedback and strengthen software development and problem-solving skills.

Education – Formal

SMK Bakti Nusantara 666

Software Engineering | Jul 2022 – May 2025

- Studied programming fundamentals, web development, databases, and software development through academic projects and hands-on learning.

Education – Non Formal

PT DumbWays Indonesia Teknologi

Full-Stack Development Program | Jun 2026 | Grade: 95/100

- Completed a hands-on full-stack development program focused on practical applications and real-world case studies.
- Strengthened skills in JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB, and backend development.

Projects

Barberz — Barbershop Management System

Tech Stack: Next.js, React.js, React Native, Expo, TypeScript, Node.js, Express.js, PostgreSQL, Tailwind CSS, NativeWind, DaisyUI

- Developed a full-stack barbershop management ecosystem covering admin operations, customer-facing services, and booking workflows.
- Built responsive web interfaces and backend services for managing customers, services, orders, payments, and operational data.
- GitHub (Customer Web): https://github.com/rickGum/NextJs-project-5-customer-view
- GitHub (Admin Dashboard): https://github.com/rickGum/Frontend-barberz
- GitHub (Admin Mobile App): https://github.com/rickGum/Mobile-barberz

RickGram — Social Media Web & Mobile Application

Tech Stack: React.js, TypeScript, JavaScript, Express.js, PostgreSQL, Tailwind CSS, DaisyUI, React Native, Expo, NativeWind

- Developed a social media application for sharing content and interacting with other users across web and mobile platforms.
- Built responsive interfaces and integrated backend services and database functionality for application data.
- GitHub (Web App): https://github.com/wirap116206-code/FE-medsos-app
- GitHub (Mobile App): https://github.com/wirap116206-code/Mobile-medsos-app

Resume — CV Builder Web App

Tech Stack: React.js, JavaScript, Tailwind CSS, MongoDB, Mongoose, PrebuiltUI

- Developed a responsive resume builder web application for creating and presenting professional backgrounds, technical skills, and software development projects.
- Designed a clean and user-friendly interface using React.js and Tailwind CSS to provide a smooth resume-building experience.
- Integrated MongoDB and Mongoose to manage and store resume-related data, including professional summaries and other profile information.
- GitHub: https://github.com/wirap116206-code/resume-app

NakTidor — Sleep Tracker

Tech Stack: Next.js, Tailwind CSS, Supabase

- Developed NakTidor, a responsive sleep tracking web application that helps users record sleep duration, view sleep history, and monitor sleep patterns.
- Designed a clean and user-friendly interface using Next.js and Tailwind CSS to provide a seamless sleep tracking experience across devices.
- Integrated Supabase for database management and authentication, enabling users to securely sign in and manage their sleep records.
- GitHub: https://github.com/wirap116206-code/NakTidor

Certification

Certificate Graduation — PT. Dumbways Teknologi Indonesia

Depok | Sep 2026
